

STATEMENT OF PURPOSE

RS25401

This Memorial requests Congress to designate the Craters of the Moon National Monument as a national park while protecting states rights and the rights of current users. It also guides Congress to protect current use of Highway 20/26 and requests an expansion of that right of way. This has potential to positively affect economic growth in the area and communities around the Craters.

FISCAL NOTE

There should be no immediate cost to the state or counties. There will be some sign changes paid for at the federal level. However, if there is an increase in traffic on the road in future years, that could cause ITD to make adjustments for safety or passing lanes.
